Elementary School Summer Program

Grade 7 & 8 Literacy Through The Arts

FREE

FREE

The arts can play a vital role in literacy. Students can be initially engaged in reading by focusing on their comprehension and enjoyment of a given story, poem, chant, or rhyme. Fundamentally, balanced literacy revolves around two primary strands, a reading strand and a writing strand, each of which mirrors the other.

In the balanced approach, teachers are encouraged to use a balance between the traditional and the modern approach based on the needs of the students and the effectiveness of the technique employed.

Learning through the arts often enhance learning by putting into an enjoyable context important skills that may otherwise seem disconnected to a student's world. Although both the traditional and the art based courses are consistent in their objectives, they will employ different methods of delivery. The method of instruction used in this course will focus on drama, music and visual arts as a means of contextualizing core content.
