

If your teeth hurt, we can help.

Youth in Halton (age 17 or under) who urgently need dental care can apply for financial assistance if they are not covered by dental insurance and can't afford treatment.

Halton Region Health Department wants residents to be aware of this service, so they are currently promoting it across Burlington, Halton Hills, Milton and Oakville. Look for posters in buses and malls, along with a 30-second advertisement playing on CHCH TV and in Cineplex Odeon theatres.

For more information about this completely **confidential** and **free** service, or to find out if you are eligible, contact Halton Region by dialing 311 (toll free) or 905-825-6000, or visit www.halton.ca/youthdental.
